empresa

Esmebra S.L. es una empresa reconocida como una de las principales distribuidoras de grifería para baño y cocina de España.

Sus productos e imagen de marca tienen una merecida reputación en el mercado a través de su exhaustiva búsqueda de calidad, innovación y servicio al cliente. Estos son los sellos de calidad distintivos de la empresa desde su fundación en 1.999.

Este compromiso sumado a la estrategia de desarrollo de nuevos productos que reflejan las necesidades del mercado son la clave del éxito de la empresa.

***Esmebra S.L.** is an renowned company as one of the leading distributors of bathroom and kitchen taps of Spain.*

Our products and brand image mark have any available deserved reputation in the market through its exhaustive search for quality, innovation and customer service. These are the hallmarks of distinctive quality of the company since its founding in 1.999.

This commitment coupled with the strategy of developing new products that reflect the market needs are key to the success of the company .

introducción

Presentamos la colección 2018 de baños con varias novedades. Incorporamos nuevas series con distintos diseños, aumentando nuestro abanico de posibilidades para el baño, desde las líneas rectas y depuradas de las series **Corcega** y **Lisboa**, hasta la elegancia y sencillez de las series **Monza** y **Fenix-2**. Así mismo, destacamos la serie **Coral** con el novedoso sistema progresivo, un novedoso concepto que ofrece un ahorro de agua y energía.

We present the 2018 bathroom collection with new features. We incorporate new series with different designs, increasing our range of possibilities for the bath, from the straight and purified lines of the series Corcega and Lisboa, to the elegance and simplicity of the Monza and Fenix-2 series. Also, we highlight the Coral series with the new progressive system, a concept that offers saving water and energy.

progresivo

control con un giro de **180 °** hacia la derecha.
Los primeros 90° controlan el caudal de agua fría, el resto controla la
mezcla de agua fría y caliente, desde menos temperatura a más.
Para cerrar, girar totalmente hacia la izquierda.

La serie **Coral** ofrece la opción de
apertura y mezcla con el novedoso
sistema **progresivo**.

La tecnología progresiva representa
un nuevo concepto en el
funcionamiento de las griferías.
Es un innovador sistema que ofrece
una apertura de agua fría y caudal
estable, donde el paso de agua fría a
caliente es progresivo, facilitando un
ahorro de agua y energía.
